REACH  
THE  
TOP

Dear Customers, Friends, and Climbers,

the main goal of this edition of VirginGrip NEWS is simple: to make your hold selection easier, speed up your planning and ordering process, and help you keep your routes and boulders attractive, modern, and fun for your climbers.

That's why, after some time, we're introducing brand-new boulder kits and lead sets—designed to save you both time and budget without compromising creativity or quality.

No complicated mixing. No long decision-making.

**Each set is built on real route-setting experience.**

**better  
movement  
flow**

**consistent  
modern  
style**

**easy  
product  
compatibility**

**The result?**

**Faster setting, better routes, happier climbers.**

And one more thing we're really proud of – this year we celebrate **10 years of VirginGrip**. Thanks for being part of it.

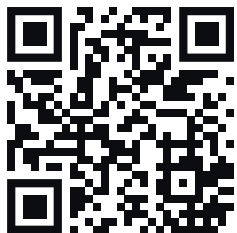

Tomáš Riese, CEO VirginGrip

# NEW BOULDER KITS & LEAD SETS

Every set we designed is ready to go straight on the wall  
– no unnecessary combining, no second guessing.

**Just pick a set  
and start setting!**

# NEW GRIP-AREA TECHNOLOGY by VirginGrip

More durability. More performance. Longer lifetime.

Produced to stay grippy

The most-used part of every climbing hold is the grip-area. It is also the part exposed to the highest mechanical wear caused by climbing shoes and repeated use.

That's why we developed a new casting technology focused on significantly improved **abrasion resistance**. The new grip-area maintains its texture longer, helping footholds and smaller crimps preserve their original performance even after intensive use.

The technology was introduced for the first time on the new **Falcons** series in November 2026 and is now being gradually implemented across other VirginGrip collections, including **Fighters, Seashells, UFOs**, and more.

**longer-lasting  
texture**

**better  
grip consistency**

**extended  
hold lifetime**

**Boulder Kit / Competition Line**

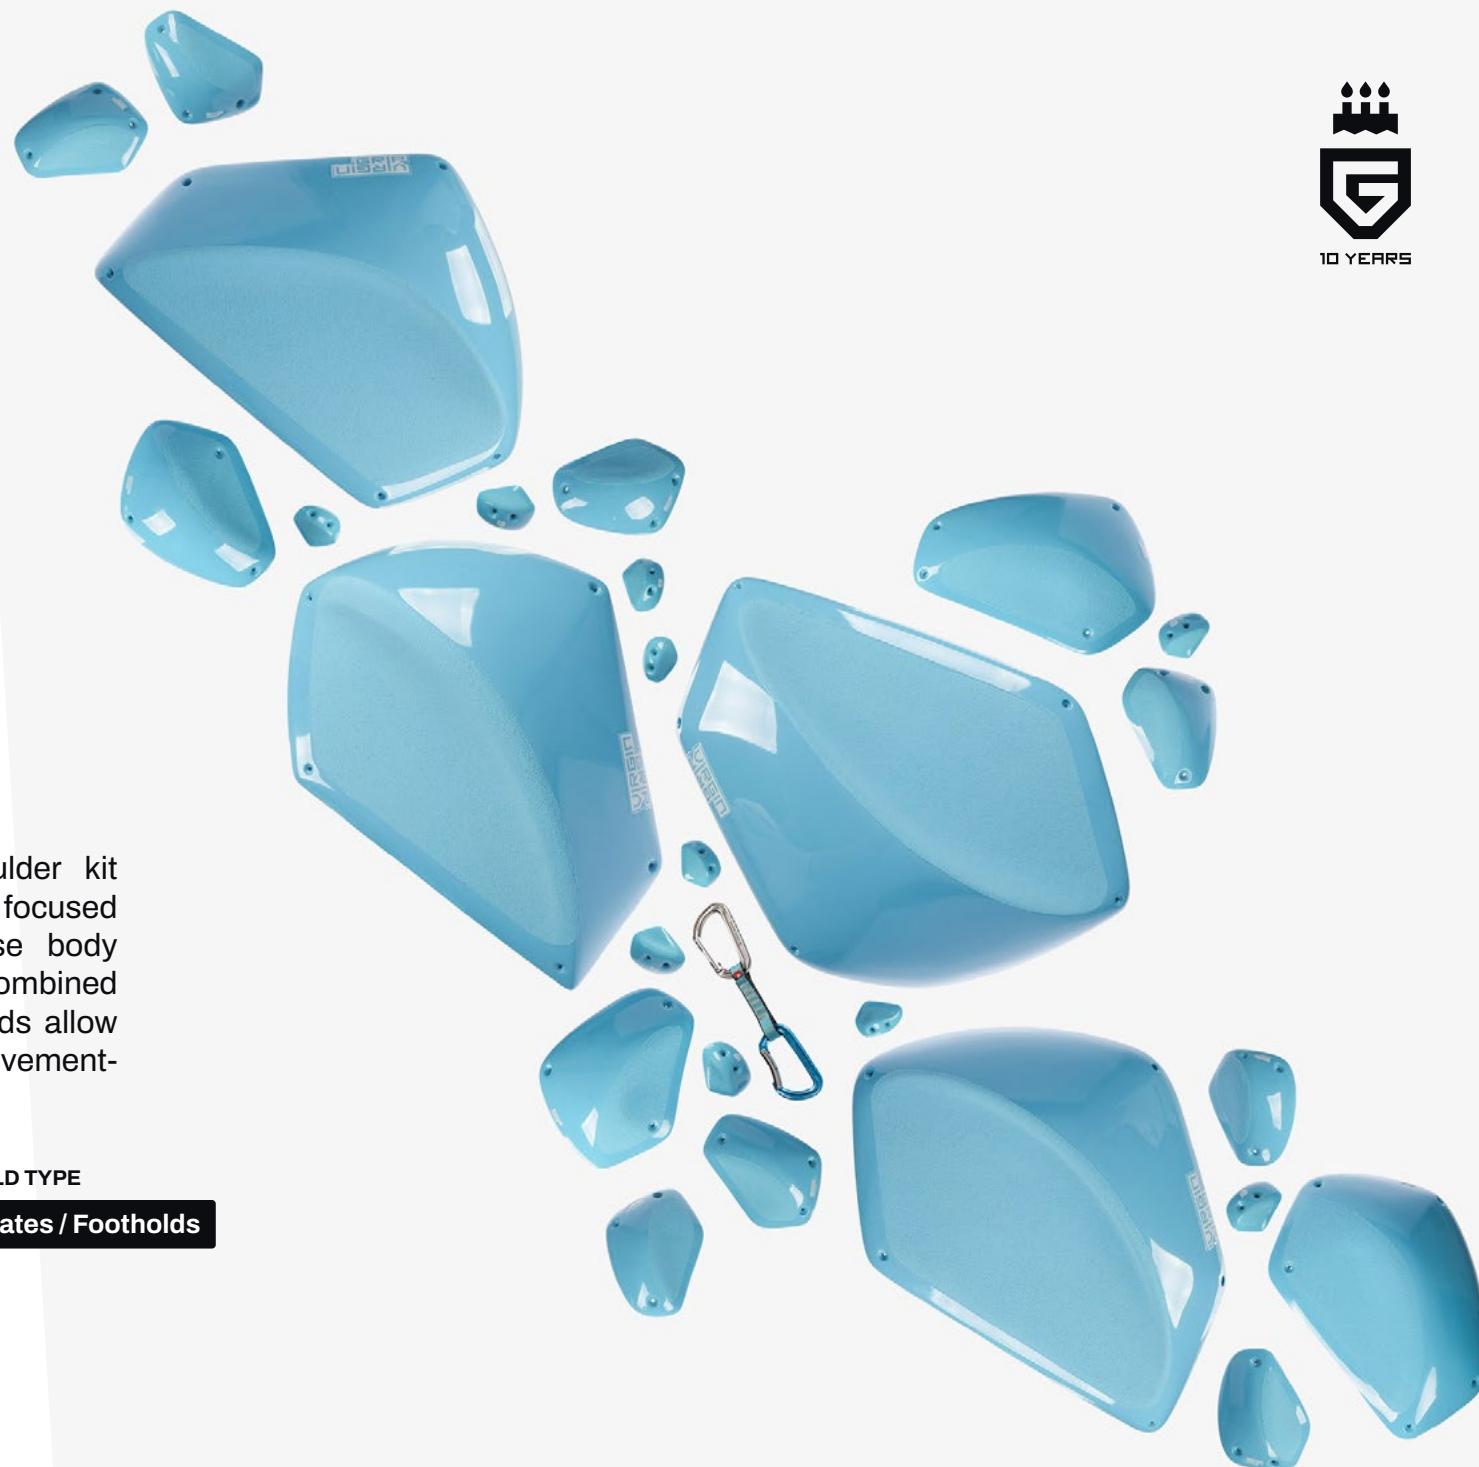

# Falcons Slab

26 pcs

Climbing holds Falcons form a boulder kit designed for modern slab problems focused on coordination, balance and precise body positioning. Dominant large PU macros combined with smaller edges, plates and footholds allow route setters to build technical and movement-focused slab problems.

| FIXATION | SIZE     | TEXTURE      | HOLD TYPE          |
|----------|----------|--------------|--------------------|
| Screws   | XS-Macro | Dual Texture | Plates / Footholds |

PU climbing holds available in 15 colors

**Boulder Kit / Competition Line**

# Falcons

**29 pcs**

Climbing holds Falcons form a boulder kit designed for powerful problems on overhanging walls. Dominant large PU macros combined with smaller edges and footholds allow route setters to build intense boulders with dynamic transitions between macros.

| FIXATION | SIZE     | TEXTURE      | HOLD TYPE                    |
|----------|----------|--------------|------------------------------|
| Screws   | XS-Macro | Dual Texture | Pinches / Crimps / Footholds |

PU climbing holds available in 15 colors

## Boulder Kit / Competition Line

# UFO

26 pcs

Climbing holds UFO form a boulder kit designed for powerful and dynamic problems on overhanging walls. Large PU macros combined with jugs, positive crimps and footholds allow route setters to create intense and clearly readable boulder problems.

PU climbing holds available in 15 colors

**Boulder Kit / Competition Line**

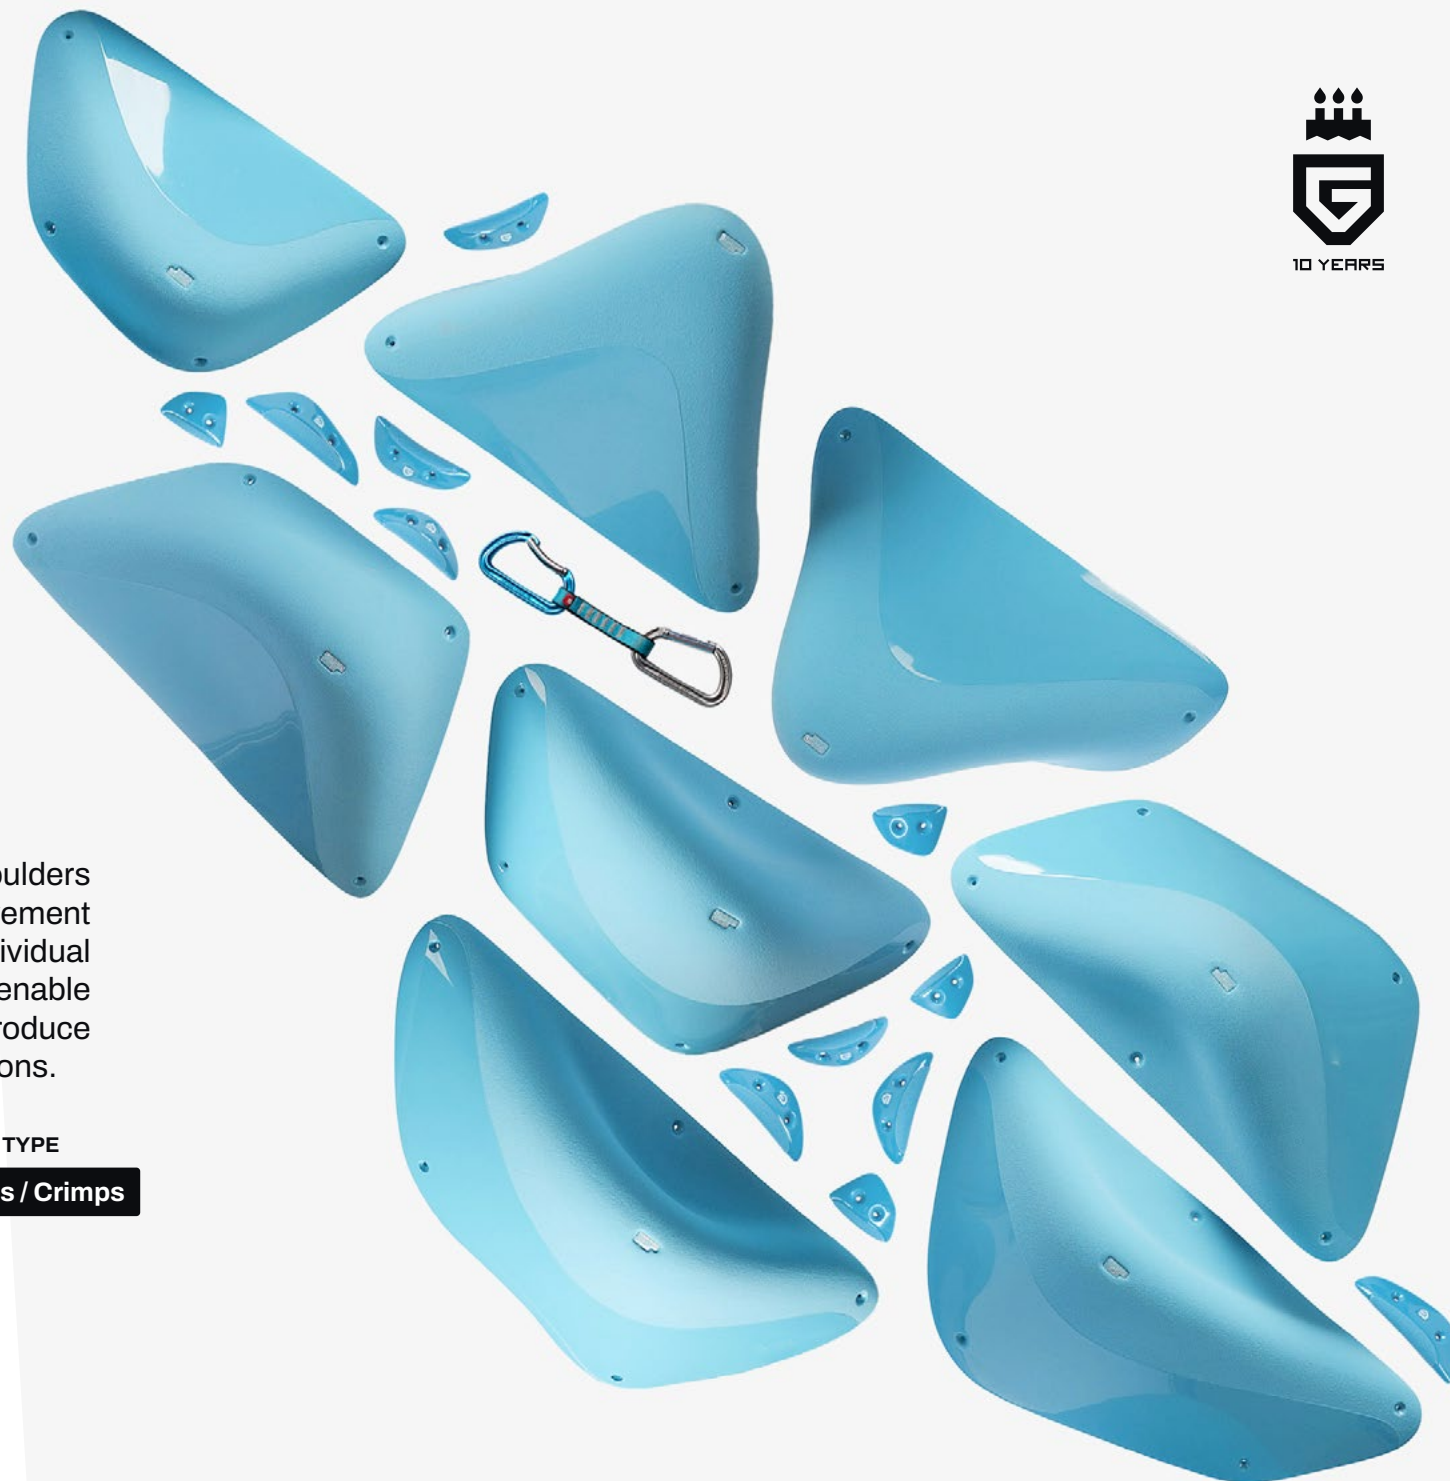

# Fighters

20 pcs

The set is ideal for modern overhang boulders focused on pulling power, dynamic movement and smooth transitions between individual macros. Large jugs add natural flow and enable dynamic moves, while positive crimps introduce technical sequences even in steeper sections.

| FIXATION | SIZE       | TEXTURE      | HOLD TYPE     |
|----------|------------|--------------|---------------|
| Screws   | XS / Macro | Dual Texture | Jugs / Crimps |

PU climbing holds available in 15 colors

## Boulder Kit / Basic Line

# Lagunas

25 pcs

Climbing holds Lagunas form a boulder kit designed for powerful problems on overhanging walls. Dominant large PU macros combined with positive jugs and footholds allow route setters to build visually strong and clearly readable boulder problems.

| FIXATION | SIZE          | TEXTURE  | HOLD TYPE               |
|----------|---------------|----------|-------------------------|
| Screws   | S-XXL / Macro | Standard | Jugs / Slopers / Crimps |

PU climbing holds available in 15 colors

## Boulder Kit / Basic Line

# Solaris

20 pcs

Climbing holds Solaris form a boulder kit designed for powerful and dynamic problems on overhanging walls. Dominant large PU macros combined with positive jugs and footholds allow route setters to create visually strong and clearly readable boulder problems.

| FIXATION | SIZE  | TEXTURE  | HOLD TYPE        |
|----------|-------|----------|------------------|
| Combined | S-XXL | Standard | Jugs / Footholds |

PU climbing holds available in 15 colors

**Boulder Kit / Basic Line**

# Manta Ray

**15 pcs**

Climbing holds Manta Ray form a boulder kit designed for powerful and dynamic problems on overhanging walls. Dominant large PU macros combined with positive jugs and footholds allow route setters to create visually strong and clearly readable boulder problems.

| FIXATION | SIZE  | TEXTURE  | HOLD TYPE        |
|----------|-------|----------|------------------|
| Combined | S-XXL | Standard | Jugs / Footholds |

PU climbing holds available in 15 colors

Lead Set / Competition Line

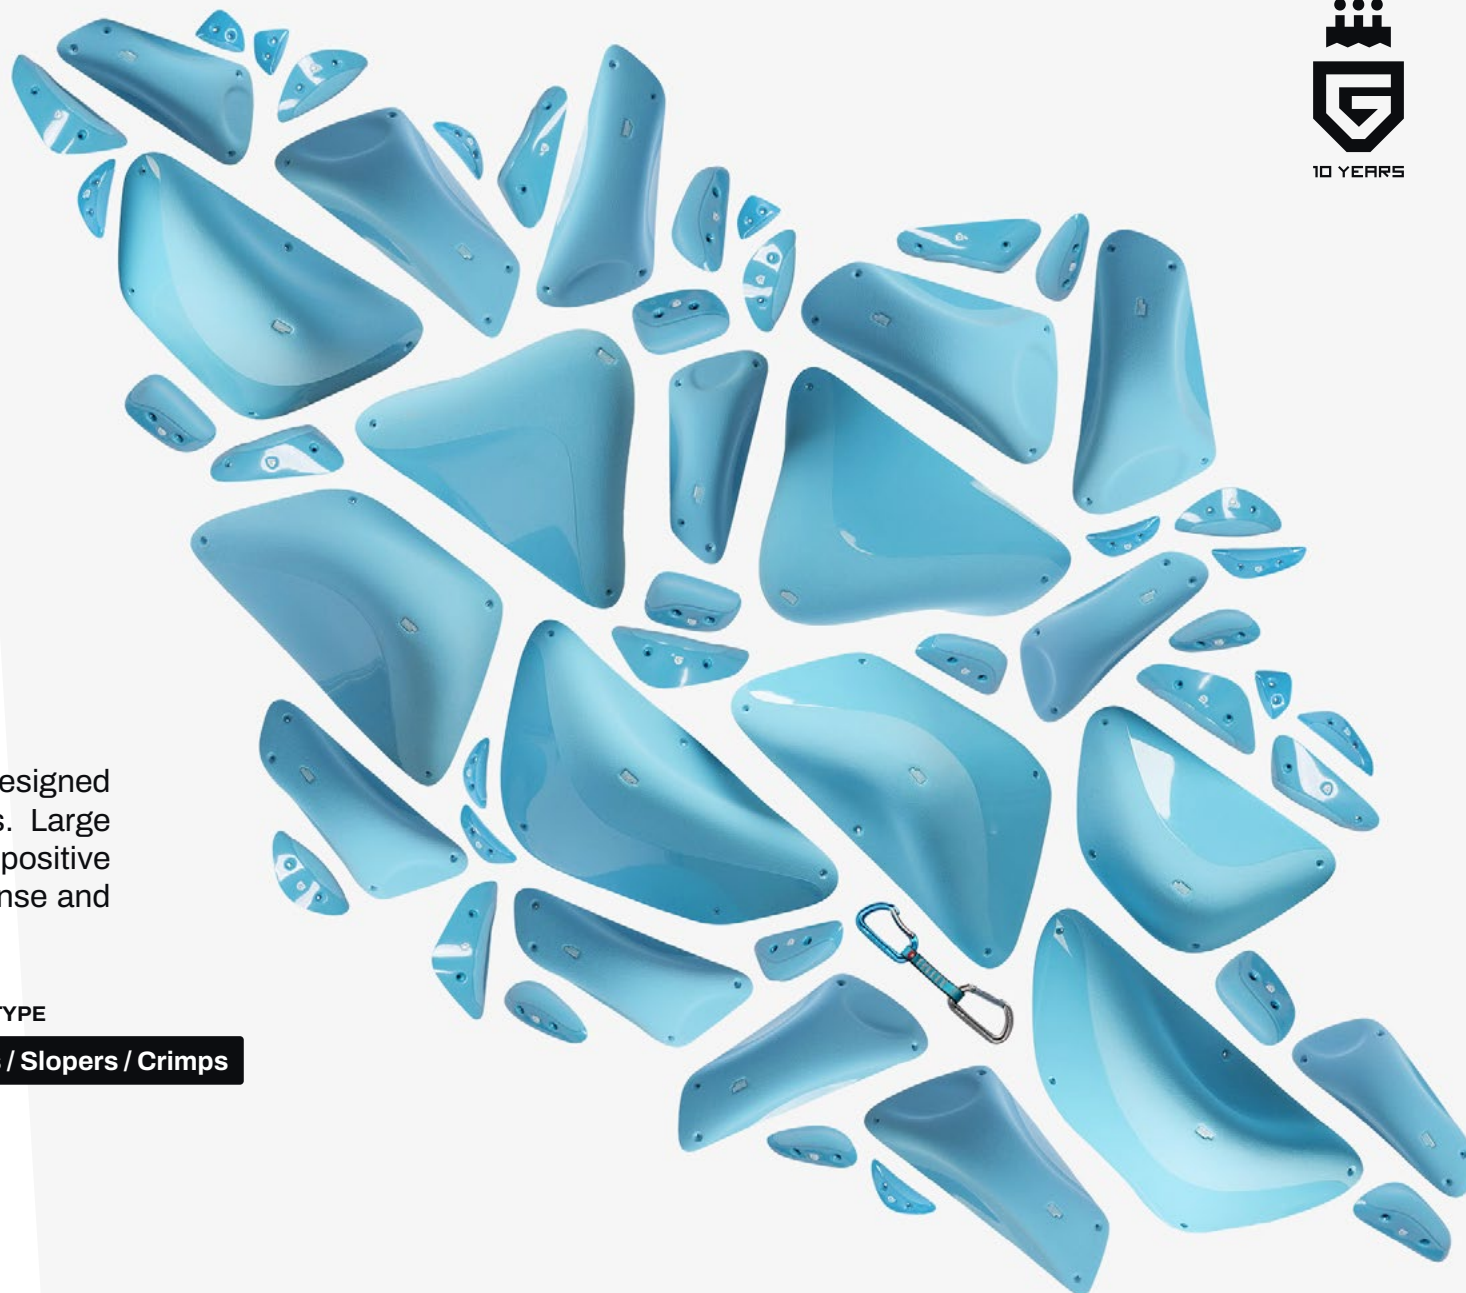

# Fighters

56 pcs

Climbing holds Fighters form a lead set designed for powerful and technical rope routes. Large PU macros combined with slopers and positive crimps allow route setters to create intense and clearly readable climbing routes.

| FIXATION | SIZE   | TEXTURE      | HOLD TYPE               |
|----------|--------|--------------|-------------------------|
| Screws   | XS-XXL | Dual Texture | Jugs / Slopers / Crimps |

PU climbing holds available in 15 colors

## Lead Set / Competition Line

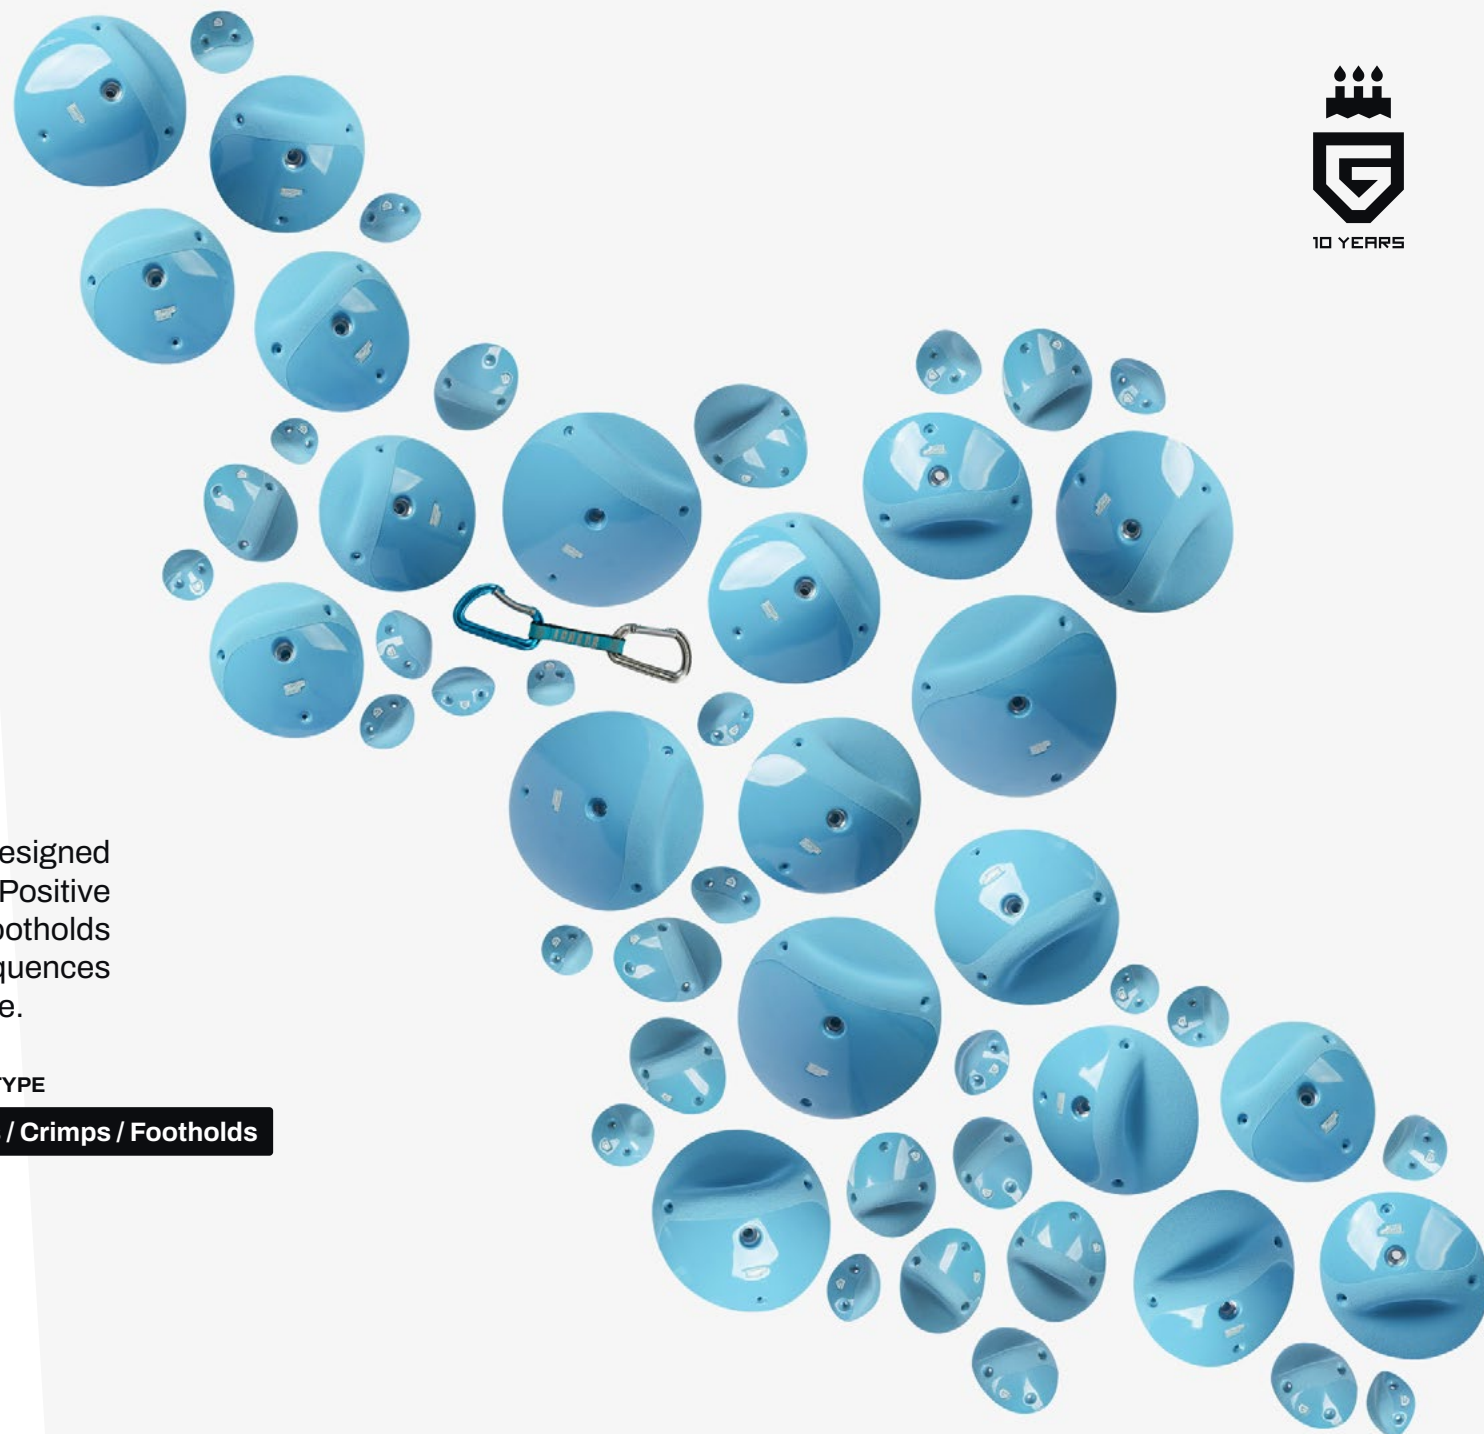

# UFO

52 pcs

Climbing holds UFO form a lead set designed for technical and powerful rope routes. Positive crimps, small to micro crimps and footholds allow route setters to create precise sequences focused on finger strength and endurance.

| FIXATION | SIZE | TEXTURE      | HOLD TYPE                 |
|----------|------|--------------|---------------------------|
| Combined | XS-L | Dual Texture | Jugs / Crimps / Footholds |

PU climbing holds available in 15 colors

Lead Set / Basic Line

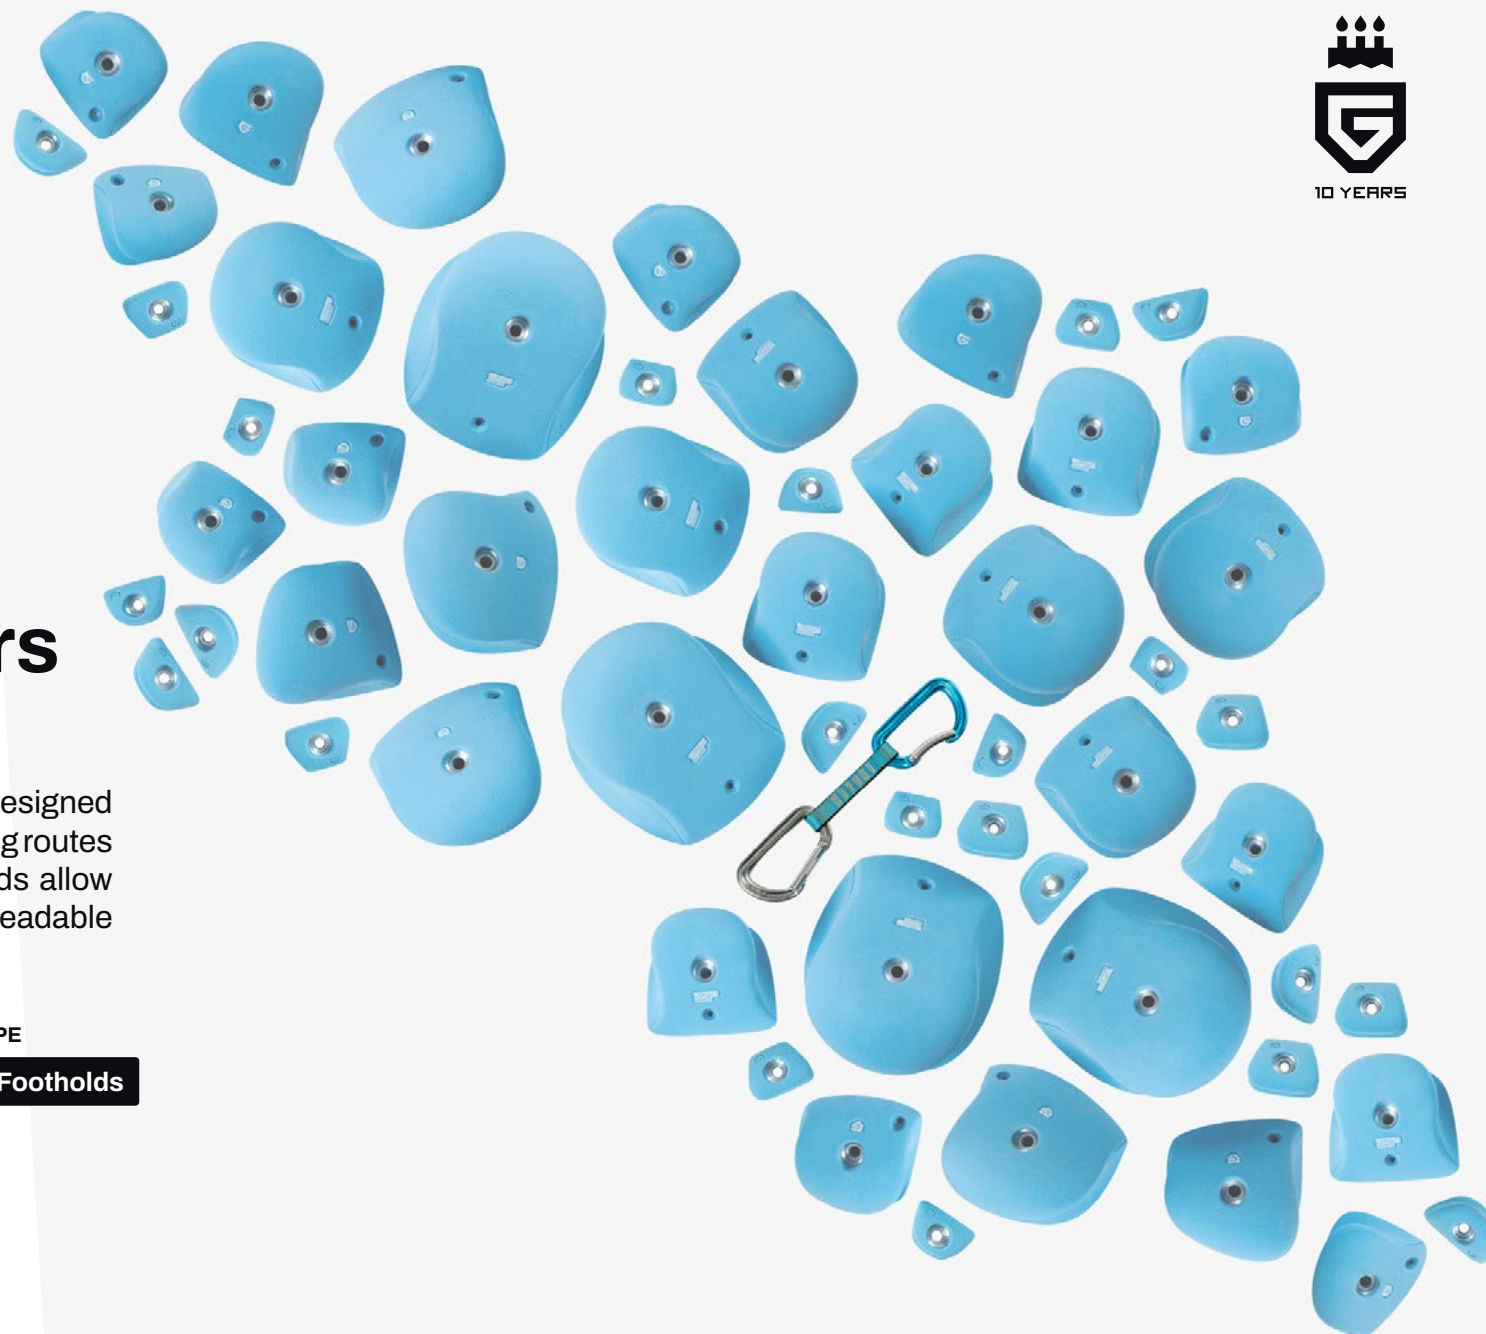

# Frogs Beginners

56 pcs

Climbing holds Frogs form a lead set designed specifically for building easy sport climbing routes for beginners. Positive jugs and footholds allow route setters to create safe and clearly readable climbing routes.

| FIXATION | SIZE  | TEXTURE  | HOLD TYPE        |
|----------|-------|----------|------------------|
| Combined | S-XXL | Standard | Jugs / Footholds |

PU climbing holds available in 15 colors

Lead Set / Basic Line

# Lagunas

50 pcs

Climbing holds Lagunas form a lead set designed for clear and flowing sport climbing routes. Large and medium jugs combined with crimps and footholds allow route setters to build a wide range of climbing routes.

# IMPORTANT PRICE LIST UPDATE

Along with the new sets, we've prepared an **updated price list** reflecting the new configurations.

**And YES**

**no increase in base prices**

For the new price list,  
contact us at:

[thomas@jegrimpe.com](mailto:thomas@jegrimpe.com)

# CONCLUSION —

If you want to set faster, smarter, and with confidence, these new sets are exactly the tool for you.

Get in touch – we're happy to help you choose the right setup for your wall.

Looking forward to working together – and to the next 10 years with you.

VirginGrip Team
